COLD is a competitive grant program designed to decrease the number of violent cold case crime cases awaiting prosecution. It supports the prosecution of violent cold case crimes, where a suspect (known or unknown) has been identified through DNA evidence.

**Main Goals**
1. Prosecute violent cold case crimes
2. Decrease the number of violent cold case crime cases awaiting prosecution

Prosecuting agencies, law enforcement, state agencies, or local crime laboratories may partner with the agency that serves as the lead applicant for the award to work toward achieving the program goal of seeking resolution in violent cold case crimes. **However, a prosecuting entity must be fully engaged in the project.**
Suspect DNA

• “DNA from a suspect” means a CODIS-eligible, or otherwise statistically relevant, short tandem repeat (STR or Y-STR) profile that has been generated from crime scene evidence and is attributed to a suspect.

• Suspect may be known or unknown
  – CODIS Hit or no Hit (John Doe warrant type of situation)
  – No untested SAKs
  – Does not mean DNA evidence present, but no testing has occurred

• CODIS is the acronym for the Combined DNA Index System and is the generic term used to describe the FBI’s program of support for criminal justice DNA databases as well as the software used to run these databases.
Suspect DNA requirements

- Per the solicitation, familial searching must be conducted (if legally permissible in your state) prior to any forensic genetic genealogy (FGG) work, however exceptions can be granted by BJA, if warranted.

- If you do not already have a statistically relevant suspect DNA profile, you cannot use COLD funds to work a case
Cold Case Inventory

It is required that an inventory of your agency’s violent cold case crimes that you wish to utilize grant funds for be submitted and approved by BJA

• Awardees will have an initial period to complete the inventory and access up to 25% of funds.
  o Once the inventory has been approved by BJA, the award condition that is withholding the remaining funds will be lifted provided that all other conditions have been met.

• The inventory certification must include:
  o Year the crime occurred
  o Year suspect profile developed
  o What technology developed the profile
  o What level of CODIS is the profile in
  o Has the profile had a CODIS hit
  o If the profile is NOT in CODIS, does your prosecutor deem the profile to be statistically relevant/significant?

• The application must describe how the inventory requirement will be met.

Requirements of funding for FGG

This program’s funding may be used for FGG with the following requirements and notes:

• The profile of the unknown offender must be uploaded to CODIS but have yet to generate a hit associated with a known suspect in the database.

• It is highly recommended that a relationship with the FBI’s Investigative Genealogy team be established for the investigative portion of FGG (at no cost to the grantee).

• Awardees who are proposing to conduct in-house FGG (i.e., tree building and the subsequent steps in the process) will be required to complete the BJA/FBI archived FGG training as well as any future BJA/FBI FGG trainings that may occur during the lifespan of the grant.

• Awardees must adhere to the DOJ’s Interim Policy on FGG/FGGS as well as the final policy if/when issued.
ViCAP and NamUS

- Award recipients must use federal resources such as FBI’s Violent Criminal Apprehension Program (ViCAP) and NIJ’s National Unidentified and Missing Persons System (NamUs), when applicable.

- All criteria cases must be entered into ViCAP before the end of the grant period.
  - Award recipients should budget 60 minutes per ViCAP entry plus additional time for searches and follow up on leads.
  - This cannot exceed 10% of the budget

- FBI ViCAP staff are available to assist award recipients with gaining entry into ViCAP, provide training, and conducting crime analyses.

- All applicable cases must be entered into NamUs and ViCAP before the end of the grant period.
Application considerations and tips

- If the lead applicant is a non-prosecuting entity, a Letter of Support/Commitment must be submitted outlining the prosecutor(s) full engagement in the project.

- Spell out first-time use of acronyms in your application, including the abstract.

- Confirm you are following the Proposal Narrative (a-d) guidelines in the solicitation beginning on page 17.

- Make certain your project does not describe testing evidence in order to obtain a suspect DNA profile as this is unallowable.

- If you have past funding from this program (active or non-active) and would like to continue or need additional resources to complement your current/past projects, include a description of your current project’s funding as well as the project’s overall history in your narrative along with a justification for additional funding.
